## ABOUT US!

SUBROSTAR was founded on strong business connections and a shared vision. Built on determination, innovation, and social responsibility, our directors bring diverse strengths to fulfil our mission: to create products and services that uplift both our company and our people.

## What We Do

With a vast knowledge in reinforcing steel we do what we say by delivering the task namely:

- The manufacturing and supplying of fiber cement spacer blocks for the reinforcing steel industry.
- Manufacturing of FT Block range for precast Rib and Block systems.
